

History of Social Engineering - What is Social Engineering ?

Nowadays social engineering is about information privacy on the Internet, the term social engineering appeared in history before computer era.

<https://www.ukcolumn.org/article/history-social-engineering>

(I haven't read this site completely but I hope it provides enough info)

Common Techniques in Social Engineering (terminologies)

There are bunch of terminologies in Wikipedia so we can just pick some and find its info from other sites. This will be the main part of the project (I hope it is long enough)

Notable Social Engineers

Found this section from Wiki but I am still not sure if we are gonna do this. It's hard to get opinions from someones so we may do this instead.

How to prevent yourself from those types of attack

Along with the second section, this one is also the main part of the project.

Law?

I don't know if we are gonna do this part. It somehow relates to the course (U.S vs Canadian policies ???). Anyway, we'll see when we finish previous sections.
